· Hazard statements	
Causes severe skin burns and eye damage.	
May cause cancer.	
May cause respiratory irritation.	
Causes damage to organs through prolonged or repeated exposure.	
• Precautionary statements	
Obtain special instructions before use.	
Do not handle until all safety precautions have been read and understood. Do not breathe dust.	
Wash thoroughly after handling.	
Use only outdoors or in a well-ventilated area.	
Wear protective gloves/protective clothing/eye protection/face protection.	
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses,	if present and easy to d
Continue rinsing.	ij preseni unu eusy io u
Wash contaminated clothing before reuse.	
Store in a well-ventilated place. Keep container tightly closed.	
Dispose of contents/container in accordance with local/regional/national/internation	nal regulations
Classification system:	nai regulalions.

4 First-aid measures

- · Description of first aid measures
- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact:

Immediately wash with water and soap and rinse thoroughly.

- If skin irritation continues, consult a doctor.
- After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

- · After swallowing: Seek immediate medical advice.
- Information for doctor:
- · Most important symptoms and effects, both acute and delayed No further relevant information available.
- · Indication of any immediate medical attention and special treatment needed

No further relevant information available.

5 Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents:

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Use fire fighting measures that suit the environment.

- Special hazards arising from the substance or mixture No further relevant information available.
- Advice for firefighters
- · Protective equipment: Mouth respiratory protective device.

6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation

- Environmental precautions: Do not allow product to reach sewage system or any water course.
- Methods and material for containment and cleaning up: Pick up mechanically.
- · Reference to other sections

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

PAC-1:

24937-78-8 Ethyl vinyl acetate copolymer: 30 mg/m³

14808-60-7 quartz (SiO2)*: 0.075 mg/m³

· <u>PAC-2:</u>

24937-78-8 Ethyl vinyl acetate copolymer: 330 mg/m³

14808-60-7 quartz (SiO2)*: 33 mg/m³

· PAC-3:

7 Handling and storage

- Handling:
- *Precautions for safe handling Use only in well ventilated areas.*
- · Information about protection against explosions and fires: No special measures required.
- · Conditions for safe storage, including any incompatibilities
- Storage:
- Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep receptacle tightly sealed.
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

• Additional information about design of technical systems: No further data; see section 7.

(Contd. of page 4) Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. • Breathing equipment: Use suitable respiratory protective device in case of insufficient ventilation. • Recommended filter device for short term use: Filter P2 • Protection of hands: Protective gloves Preventive skin protection by use of skin-protecting agents is recommended. · Material of gloves Nitrile rubber, NBR Recommended thickness of the material: ≥ 0.35 mm The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. Penetration time of glove material The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed. • Eye protection: Tightly sealed goggles · **Body protection:** Protective work clothing 9 Physical and chemical properties · Information on basic physical and chemical properties General Information · Appearance: Form: Powder Color: Grey · Odor: **Odorless** · Odor threshold: Not determined. • *pH-value at 20 °C (68 °F):* 11 · Change in condition Melting point/Melting range: Undetermined. Boiling point/Boiling range: Undetermined. Not applicable. · Flash point: Not determined. · Flammability (solid, gaseous):

• Decomposition temperature: Not determined.

• Ignition temperature: Product is not selfigniting.

10 Stability and reactivity

· Reactivity No further relevant information available.

· Chemical stability

- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- *Conditions to avoid No further relevant information available.*
- Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological information

· Information on toxicological effects

- Acute toxicity:
- · LD/LC50 values that are relevant for classification:

7778-18-9 calcium sulphate, natural

Oral LD50 >5,000 mg/kg/ (rat)

- Primary irritant effect:
- on the eye: Irritating effect.
- Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations:

Irritant

When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

12 Ecological information

· Toxicity

- Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- *Mobility in soil* No further relevant information available.
- Additional ecological information:

· General notes:

Water hazard class 1 (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

· Results of PBT and vPvB assessment

· **PBT:** Not applicable.

- · vPvB: Not applicable.
- · Other adverse effects No further relevant information available.

13 Disposal considerations

- · Waste treatment methods
- · Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system. Must be specially treated adhering to official regulations.

- · Uncleaned packagings:
- Recommendation: Disposal must be made according to official regulations.
- · Recommended cleansing agent: Water, if necessary with cleansing agents.
